

Over 900 works of art on our walls

Donald Berman Maimonides is the first healthcare facility completely adorned with artwork by the Art for Healing Foundation, with over 900 works of art installed. Donald Berman Maimonides Foundation has enjoyed a wonderful partnership with the Art for Healing Foundation since 2006. Art hangs in all spaces including hallways, dining rooms, activity rooms and offices. Mediums represented include paintings, prints, etchings, photographs and sculptures. This incredible partnership has completely transformed the walls of the Centre.

The Art for Healing Foundation is a Montreal-based non-profit organization, founded by Earl Pinchuk and Gary Blair and whose mission is to bring the healing power of art to hospitals and wellness facilities, transforming otherwise sterile public and patient areas into inspiring environments that encourage a sense of serenity and hope for patients, their families, and healthcare providers. Here is a list of many of the galleries at the Centre. We encourage you to drop by for a visit.
